QU Goal, Objectives, and Outcomes

■ **Goal:**

- ☐ Continue partnership creation, prioritization and execution (with support from SAF/IE)

■ **Objectives:**

- ☐ SAF/IEI team provides updates from PMO
- ☐ Review active partnership concepts
- ☐ Identify/discuss/prioritize new partnership concepts

■ **Outcomes:**

- ☐ Updated mutual awareness of partnerships from base and AF
- ☐ Awareness of resources still available through SAF/IE
- ☐ Continued sustainment of the partnership process

Program Update & Result Highlights

U.S. AIR FORCE

U.S. AIR FORCE

AF Community Partnership Program Update

- **SAF/IE Commitment:** This is an Enduring Requirement
 - Support installation and community leaders' recurring meeting schedule
 - "Refresh" new leaders and staff nominally every 2 years or as requested
- **Participation**
 - 46 installations/communities are in the program
- **Initiatives**
 - 57 implemented agreements; 250 actively being worked
 - 1000+ innovative ideas—"trigger" others; many with AF-wide applicability
 - Our collaboration website (APAN): Airforcepartnerships.org
- First Intergovernmental Support Agreements completed
- New FY15 NDAA, 10 USC 2679 facilitates State/local agreements—anticipate AF-wide use

Integrity - Service - Excellence

5

U.S. AIR FORCE

Highlights of Program Results to Date

- **Completed agreements**
 - JB Andrews modified refuse hauling contract to county landfill; lower AF tipping fee and increased county revenue
 - Robins AFB and community medical/dental host continuing medical education
- **Near completion**
 - Moody AFB-Lowndes County: county to operate AF water and wastewater plants at lower cost to AF; increased revenue and capacity to county (first IGSA / FAR contract; pending award)
- **In work with Task Force**
 - Joint Firing Ranges: shared cost between AFBs and local governments to construct new facility (MILCON, O&M, or lease)
 - Working with Task Force members to develop templates: Joint Use Airfield, Water/Wastewater, Shared Golf Course, Transition Assistance, and Training
- **Guidance/Templates**
 - 10 USC 2679 Q&A; Engaging Industry paper
 - BCA outline/template
 - AFD 90-22 (published Jul 14); AFI 90-2201 (under development)
 - Medical Training & Transition Assistance Partnerships Case Studies published

Questions & Closing Remarks

U.S. AIR FORCE

FUTURE PARTNERSHIP CONCEPTS

The partnerships listed below represent ideas discussed by the Leadership Committee during the early stages of the planning process but were not selected as near-term priorities. These concepts have not been fully analyzed and many of the details regarding who would be involved, what resources would be needed, and how the agreement would work have not been determined.

- **Commercial Driver's License (CDL) Training:** This partnership would tentatively be between Hanscom AFB—LRS, CE and neighboring town's Department of Public Works. In the partnership, Hanscom AFB and surrounding jurisdictions would seek to combine initial and refresher CDL training opportunities for employees. The partnership would provide potential cost savings to employees wishing to receive or required to receive as a condition of employment CDL training.
- **Composting:** This partnership would tentatively be between Hanscom AFB—CE and the Town of Lexington's Department of Public Works. Per State law, residential yard waste is prohibited from regular waste. In the partnership, Hanscom AFB and Lexington would seek to centralize existing composting operations. The partnership would provide potential cost savings, and is dependent of the Town of Lexington's composting capacity following the installation of Photovoltaic (PV) solar panels at their composting facility.
- **Centralized Recycling Contract:** This partnership would tentatively be between Hanscom AFB—CE and neighboring towns, and recycling contractors. In the partnership, Hanscom AFB and surrounding jurisdictions would seek to consolidate recycling contracts to provide a potential cost savings, due to economies of scale.
- **Vehicle Maintenance:** This partnership would tentatively be between Hanscom AFB—LRS and neighboring towns. In the partnership, Hanscom AFB—LRS would provide maintenance and major repairs on town's large/heavy vehicles. The partnership would provide potential vehicle maintenance cost savings to local jurisdictions and reimbursement to Hanscom AFB for providing the service.
- **Land Use Planning-Transportation:** This partnership would tentatively be between Hanscom AFB, traffic planners from neighboring towns, Massport, MBTA Shuttle Services, and "Hubway" Company representatives. In the partnership, Hanscom AFB would work with community partners to establish an on-base and limited off-based shuttle route. The partnership would expand transportation options between Hanscom AFB and surrounding towns post 9-11, reduce Personally Owned Vehicle (POV) traffic congestion on base and within local communities.
- **Child Care:** This partnership would tentatively be between Hanscom AFB, and local community partners. In the partnership, local jurisdictions would identify child care service providers available to the base at a discounted military or government rate. The partnership would expand or create much-needed child care service options for base employees at a potentially discounted rate.
- **Food Availability:** This partnership would tentatively be between Hanscom AFB, neighboring towns, and private food/catering vendors. In the partnership, Hanscom AFB would contract with local food vendors to bring "mobile" food options on base while jurisdictions would promote potential opportunity with community vendors. The

partnership would support local businesses/economies while increasing the availability of food option on-base.

- **Wellness and Resiliency:** This partnership would tentatively be between health and wellness professionals from Hanscom AFB, and neighboring towns. In the partnership, Hanscom AFB and the surrounding jurisdictions would establish a "directory" or "network" of wellness and resiliency programs or support for both on and off base entities to use as a resource to support education or training needs within their respective communities (i.e. resiliency training, wingman training, exchanges between mental health professionals, resiliency professionals etc.). The partnership would expand wellness and resiliency resources to groups and individuals, and strengthens relationships between base and town populations.
- **Working Space:** This partnership would tentatively be between Hanscom AFB, and neighboring towns. In the partnership, Hanscom AFB and the surrounding towns would establish a web-based reservation system for available work spaces. The partnership would improve on the availability of working spaces to conduct meetings, training, conferences, etc., contributes to optimizing space utilization, and provide potential economic benefit to both the base and town.
- **Athletic Fields:** This partnership would tentatively be between Hanscom AFB, neighboring town's Parks and Recreation Departments, local athletic associations, and schools. In the partnership, Hanscom AFB would provide available land for athletic fields, communities would layout and prepare fields, the base would mow the fields, and athletic programs would keep them striped and clean. The partnership would expand the number and availability of practice fields for youth leagues, and provide additional revenue from clubs or private teams wishing to use the fields.
- **Indoor Fitness:** This partnership would tentatively be between Hanscom AFB, neighboring town's Parks and Recreation Departments, and the council on aging (COA). In the partnership, local Parks and Recreation Departments, and the council on aging (COA) would expand fitness and swim classes for youth and adults as well as provide gym space to local teams during low usage hours. The partnership would expand fitness programming to the Hanscom community, and provide much needed space for Parks & Recreation Departments and COA.

Partnership Initiative	Description	Benefits
Altus AFB Joint Law Enforcement Driver's Training Course	MOU for joint training. - Altus AFB provides a location (North Ramp and taxiways H and J) for the course.	- Safer law enforcement driving at no cost.
Memorandum of Understanding (MOU)	- Altus Police Department provides trainers. - Each trainee uses their department's vehicle. - Improves safety for law enforcement drivers.	
Altus AFB Military Discount for Veterinary Services	Private veterinarians will provide military discount for veterinary services, which enables the base to close its veterinary services on base and demolish the facility for reuse.	- \$100K one time deferred maintenance repairs - 10% service discount to base customers/mil
Verbal Agreement		
Altus AFB Firing Range MOU	This MOU allows the no-cost cross use of the Altus Police Department Firing Range and the Altus AFB Security Forces Firing Range.	- Allows cross-use of firing ranges for training
Memorandum of Understanding (MOU)		
Altus AFB Emergency Responder Resource Sharing	Signed MOU allows for shared maintenance, testing and repair of emergency responder equipment (Firehose testing/repair, HAZMAT suit fit test, ladder test equipment, shoot house). Avoids duplicating equipment/management and finds synergies in joint equipment use.	- \$7-\$10K/yr firehose test/repair savings of new hose purchases - Other cost savings by eliminating redundant procurement
Memorandum of Understanding (MOU)		
Buckley AFB Construct a Joint BAFB/APD Small Arms Firing Range	Partner to complete small arms training requirement locally - Phase I MOA signed: Buckley pay fee to use municipal facility/range outside north gate - Phase II Construction of joint range: Partners both require new ~\$15M facility. Investigating joint funding & construction for a new facility/range, possibly on existing municipal site. Current situation: Buckley range is closed for repair, Airmen train at USAFA.	- \$72K annual travel cost savings - Potential \$5M-8M construction cost avoidance - Increased cross-training opportunities
Memorandum of Agreement (MOA)		
Cannon AFB Firefighter Cross-Training Exchange Program	Shared firefighter training program. Each fire department will exchange two firefighters to work at another department. Base will exchange both civilian and military firefighters.	- Increased collaborative training - Improved response coordination
Memorandum of Agreement (MOA)		

Implemented Partnership Agreements

Partnership Initiative	Description	Benefits
Cannon AFB Joint Training for Civil Works Personnel	This partnership shares training responsibilities for personnel at Cannon AFB, City of Clovis, Portales, Curry County, Roosevelt County, and EPCOR Water.	40K-80K/yr Economy of Scale Cost Savings
Memorandum of Understanding (MOU)		
Cannon AFB Joint Law Enforcement Training for Certification	This partnership provides an efficient and cost effective joint training plan for the 27th Special Operations Security Forces Squadron (27 SOSFS) and Clovis Police Department (PD). Conducting joint training will allow for maximum certifications and save cost effectiveness on required/beneficial training.	<ul style="list-style-type: none">- Increased operating efficiency- Increased collaborative operations- Cost avoidance with in-kind collaborative training
Memorandum of Agreement (MOA)		
Cannon AFB Co-Sponsored Workforce Opportunities Website and Job Fair	Improve existing community website so that local job opportunities are easier to identify and employers can be better matched with qualified employees including military affiliated personnel. The first job fair was held on 29 Apr 14 and will continue to be held semi-annually.	<ul style="list-style-type: none">- Spouse Employment
Event	<ul style="list-style-type: none">- Okaloosa County Public Works Department will provide trash receptacles and collection services at four beach access points on Eglin AFB, and the county will rake the beach near the pavilion a couple of times per year.	<ul style="list-style-type: none">- County manages trash collection on Eglin AFB beaches- Base saves \$16K per year
Memorandum of Agreement (MOA)		
Ellsworth AFB Community Educational Event	Inaugural National Women's History Month celebration at University Center-Rapid City	<ul style="list-style-type: none">- Inaugural event to celebrate women and network- Educational opportunities for 96 attendees- Generated revenue/awareness for FSS programs, SD ANG, ROTC and SD CEO
Event	Similar intent as March 2014 Inaugural National Women's History Month celebration. Recent event held with over 300 participants.	<ul style="list-style-type: none">- Event to celebrate women and network
Ellsworth AFB Girls Day Out		
Event	4-month lease for first floor of Building 4040. FEMA paid over \$29K in March per the lease agreement (in-kind) plus utilities & services while in community to facilitate recovery from 4-foot snowstorm damage.	<ul style="list-style-type: none">- \$29K in-kind support from FEMA permit
Ellsworth AFB Market Underutilized Buildings		
Permit		

Implemented Partnership Agreements

11/25/2014
3:26:46 PM

Partnership Initiative	Description	Benefits
Ellsworth AFB Medical Training: Phase I Certificate	Local medical continuing education instead of travel	- Saves \$70K +/-yr in TDY costs - Restore 70 travel manday/yr patient care
Ellsworth AFB Aircraft Repair Research Memorandum of Understanding (MOU)	AF provides projects, technical information and components concerning the development of repair processes and technologies. SD School of Mines and Technology provides results and recommendations from such studies.	- Research ground-breaking methods for aircraft repair
Ellsworth AFB Engineering Workstudy Program	Workstudy with SDSM&T students & faculty in facility and process design, usage & efficiency.	- Each faculty validated design project valued at \$140K
Memorandum of Understanding (MOU)	MOU for joint decontamination training with San Angelo Community Medical Center.	- New ability to incorporate hospital staff/facilities in mass casualty response drills
Goodfellow AFB Shared Medical Emergency Training		
Memorandum of Understanding (MOU)		
Goodfellow AFB Shared Firing Range	MOU between Goodfellow AFB and Tom Green County for collaborative training at the base's outdoor firing and training range.	- Opportunities for combined training and shared resources
Memorandum of Understanding (MOU)		
Goodfellow AFB Collaborative Tactical Training Facility	MOU between Goodfellow AFB, Tom Green County, and Shannon Medical Center establishing a tactical training facility. Includes three vacant facilities that can support multi-story, real world, active shooter training.	- New ability to jointly conduct multi-story active shooter training
Memorandum of Understanding (MOU)		

Implemented Partnership Agreements

11/25/2014
3:26:46 PM

Partnership Initiative	Description	Benefits
Goodfellow AFB Help A New Kid Succeed (HANKS)	San Angelo Independent School District and Goodfellow AFB will jointly manage selection and training of students in grades K-8 to be sponsors for all incoming military and civilian students.	- Transition assistance for military dependents.
Memorandum of Understanding (MOU)		
Goodfellow AFB Shared National Incident Management Service (NIMS) Training	MOU between Goodfellow AFB and Tom Green County for joint classroom training on NIMS. Provides emergency management and exercise training opportunities on a space available basis to establish a common operating picture.	- More efficient use of classroom resources for both base and community staff - Streamlined emergency communication training at no added cost
Memorandum of Understanding (MOU)		
Hill AFB Satellite Pharmacy	This purpose of this partnership was to drive down the wait times at the base Current Pharmacy. Initially the base reached out to the community to see if space was available. When none was found they approached AAFES. Under their partnership the base pharmacy is able to leverage underutilized space in new Base Exchange. This has led to increased prescriptions filled by 75 MDG and has also increased foot traffic in AAFES facility. AAFES is reporting a 4% increase over projected sales and the pharmacy is estimating they are saving the DoD 3.2 mil year in prescription cost by having them filled on base. The Hill satellite pharmacy is currently #3 in Af for recapture.	- Increased prescriptions filled by 75 MDG - \$3.2M in DoD savings
Memorandum of Understanding (MOU)		
Hill AFB Rod and Gun Club	This partnership is between the base and 75 FSS and the privately owned Last Resort Clays. The purpose of this partnership is to increase the base Rod & Gun Club usage by hosting sponsored tournaments (only sporting clays range north of Salt Lake City. Last Resort is located in Magna UT). The MOA has been signed. The first tournament had over 100 attendees.	- Revenue for the base
Memorandum of Agreement (MOA)		
Hill AFB Library	Student interns who are pursuing degrees in Education or Library Sciences provide pre-school, youth, & adult literacy programs	- Retention of reading program after budget cuts
Informal Agreement		

Implemented Partnership Agreements

11/25/2014
3:26:46 PM

Partnership Initiative	Description	Benefits
Hill AFB College/University Student Work Study	This partnership is between the 75 LRS and local universities. It provides non-paid internships to local students and, in-turn, extra support to the base. There currently 28 opportunities available. There are no applicants for the fall. Base is currently advertising for winter internship opportunities. Reviewing options for pharmacy intern program.	- Free manpower to assist in critical mission areas - Trained local labor pool for base
Memorandum of Agreement (MOA)		
Hill AFB Mass Transit	This partnership between 75 CEG and the Utah Transit Authority (UTA) is intended to provide efficient mass transportation support to the installation. The MOA is currently in place and the UTA buses are operating. In August the buses recorded 1,800 trips but this is well below the break-even level for UTA (16.8K trips/month). The base is committed to making this partnership a success so they are currently with the UTA and others to identify ways to increase ridership.	- Expanded, cheaper transportation for Airmen & their families
Memorandum of Agreement (MOA)		
Hill AFB Lodging	This partnership is between the 75 FSS and Ogden-Weber Convention & Visitor's Bureau and Davis Area Convention & Visitors Bureau. The purpose is to provide affordable off-base lodging to comply with HAF mandated on-base reductions. The MOA is complete with Ogden Weber and the new Davis CVB MOA is awaiting signature.	- Airmen access to billeting at the best rates available
Memorandum of Agreement (MOA)		
JB Andrews Refuse	JB Andrews modified their hauling contracts to direct haulers to a facility and where tipping fees are a direct reimbursable therefore allowing JB Andrews to directly benefit from a lower tipping fee and generating revenue for the County.	- 25% cost savings from reduced tipping fees, \$56K/yr savings for JBA
Memorandum of Understanding (MOU)		
JB McGuire-Dix-Lakehurst Soccer Fields	Concept involves using base fields, AAFES food operations and FSS event planning to support the local demand for soccer and lacrosse fields. JBMDL has over 24 soccer fields that could be used to host large tournaments.	- Increased revenue to reinvest to improve grounds and base - Total expected revenue of \$115K - \$142.5K for this year
Quick Win		
JB McGuire-Dix-Lakehurst North Hanover Medical Site	Lourdes Hospital will be opening a new medical campus that will feature radiology and physical therapy services beginning August 1st. Services will include CAT SCAN, MRI, Mammogram, XRAY, etc The base will be the primary customer for this site but it will open to the public.	- \$4M in cost avoidance by using urgent care instead of ER
Verbal Agreement		

Implemented Partnership Agreements

11/25/2014
3:26:46 PM

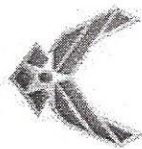

Partnership Initiative	Description	Benefits
JB McGuire-Dix-Lakehurst Advance Cardiac Life Support Certification	Lourdes Hospital has offered to host base medical personnel on a space available basis in their Advance Cardiac Life Support (ACLS) certification course. Virtua Hospital will provide training and certification for up to five active duty personnel per calendar year who are interested in becoming licensed for active duty.	- Training and certification at no cost (\$5-7K savings) - \$10K in training and TDY costs avoided - Training in trauma and blast injury
Verbal Agreement		
JB McGuire-Dix-Lakehurst Community Health Classes	Allows for free health courses from off-base medical facilities to base populace on a space available basis. This class typically costs \$1772.00. Being provided to the base in support of the hospital's non-profit mission.	- Allows for greater convenience to military personnel and families - Supports improved health
Verbal Agreement		
JB McGuire-Dix-Lakehurst Expand Continuing Medical Education Opportunities	Allows for medical professionals to attend Continuing Medical Education (CME) at any location.	- Increases training opportunities - Saves \$30-40K in TDY costs
Verbal Agreement		
JB San Antonio Bus Transportation	Expand existing public bus service at JB San Antonio (JBSA). Additional service will be added on Sundays for trainees specifically at JBSA-Lackland.	- Improved transportation on and off-base
Verbal Agreement		
JB San Antonio Animal Control	Renegotiate the cost to JB San Antonio for transfer of feral and stray animals local Animal Shelter	- \$250K savings in MILCON for a new facility - Reduced population of feral animals on base
Memorandum of Agreement (MOA)		
Klamath Falls ANG Local Community College to Provide AF Courses	Establishes a partnership for Klamath Community College (KCC) to provide courses aligned with Community College of the Air Force (CCAF) programs and serve as a CCAF testing site.	Enhances the ability of Airmen to complete CCAF degree thus increasing promotion potential and increases student base for KCC.
Memorandum of Understanding (MOU)		
Maxwell AFB Freedom Park – Community Park in Maxwell AFB Family Housing	Maxwell AFB and the River Region community held a grand opening for the park in May 2014. The Greater Montgomery Homebuilders Association will construct the bathroom facilities in September. The Montgomery Area Chamber of Commerce Foundation has raised nearly all of the money needed to construct the park.	- \$405K investment of city built park with public funding
Event		

Implemented Partnership Agreements

11/25/2014
3:26:46 PM

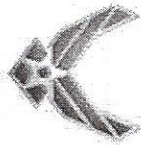

Partnership Initiative	Description	Benefits
Moody AFB Consolidated Coordination of Community Activity Schedules	Integration of university and installation young adult recreation opportunities. - Conduct quarterly meetings of Air Force and community public information officers to share information on events from their respective communities	- Create advertising opportunities with base for local businesses
Verbal Agreement Peterson AFB Air Travel Origination Data	Quantify Colorado Springs area military personnel air travel from Colorado Springs and Denver airports to enable exploration of savings/efficiencies.	- Provides city data for airport programs - Provides bases potential TDY cost saving data
Letter Robins AFB Continuing Medical Education Signed Agreement	Partner with local/regional medical and dental communities to host continuing medical/dental education and participate in local/regional opportunities.	- \$129K TDY AF savings and \$900K community savings for dental continuing education - \$48.4K TDY AF savings for continuing medical education - Saved AF families \$19K for annual student physicals
Memorandum of Agreement (MOA) Robins AFB Firing Ranges Signed Agreement	78 SFS signed MOAs with local law enforcement offices to share small arms firing ranges. This partnership allows base personnel to utilize local firing ranges rather than travel two hours or more to another military installation to maintain combat arms training requirements.	- Using local small arms ranges to help meet training requirements saves the AF \$408K/yr in TDY
Memorandum of Agreement (MOA) Robins AFB Library Services Signed Agreement	Robins AFB's library has joined the Georgia Public Information Network for Electronic Services (PINES) online catalog system to enable access to additional library resources.	- Increased access to library resources - Potential \$191K/yr savings in appropriated funds
Informal Agreement Robins AFB Community Participation in Aero Club	Robins AFB received a waiver permitting non-DOD civilian use of the Aero Club.	- Expected to gain 50 Aero Club members - Additional fee income from new members
Waiver Robins AFB Work Studies Program Signed Agreement	Five local/regional colleges and universities offer a work studies program for academic credit through participation in operations at Robins AFB.	- Trained local labor pool, 17 students in the first session, 1 student in summer (estimated 30 for Fall 2014) - No cost labor for critical shortfalls
Memorandum of Agreement (MOA)		

Implemented Partnership Agreements

11/25/2014
3:26:46 PM

Partnership Initiative	Description	Benefits
Seymour Johnson AFB SFS Bicycle Patrols	City of Goldsboro gifted used police bicycles to base. Base was planning on converting to bicycle patrols to improve effectiveness/efficiency. Concept emerged during TTX and was in place days later.	- Cost avoidance of ~\$15K for bicycles - Annual fuel savings ~\$7K/yr
Verbal Agreement Seymour Johnson AFB Pre-Treat Roads for Ice	NCDOT pretreats community roads when inclement weather is imminent. NCDOT now also passes through the installation to spray chemical. No NCDOT fee because cost is marginal; passing through base can be convenient.	- O&M cost avoidance for equipment and chemicals (\$10K/yr)
Memorandum of Understanding (MOU) Seymour Johnson AFB Postal Delivery	Eliminate contract for mail and package delivery; deliver direct to dorm - Concept surfaced at Kick-off meeting, but base pursued independently; included here for possible AF-wide consideration.	- O&M cost savings: \$96K/yr after \$20K capital investment
Verbal Agreement Tinker AFB Library Services	Base residents would use community library programs - 17 libraries, private study rooms	- Retention of program after budget cuts enables services to 26K Amn/civ/families
Informal Agreement Tinker AFB Mobile Command Post Partnership	Tinker to share their mobile command post with other departments in eastern Oklahoma County and Del City and Midwest City will provide radios that will enhance interoperability. This partnership will also lead to greater operational effectiveness and expanded capacity to deal with catastrophic events.	- Integrated communications platform for fire and rescue service - Expands AFIMS/NIMS capability - Expands C2 resources outside the gate that may be tied up in multijurisdictional events
Memorandum of Understanding (MOU) Tinker AFB Detention Facility	Partnering with local detention facility saves time/travel expenses. - Anticipated cost saving dependent on use (Approx. \$7K Annually)	- \$7-10K annual savings of time/travel costs
Memorandum of Understanding (MOU) Tinker AFB Youth Probation Counseling	Allows family of youth offenders to enter probation program as alternative to family housing eviction.	- Reduces cost and stress of eviction process on Airmen and their families
Memorandum of Agreement (MOA)	- Reduces cost and stress of eviction process for Airmen and their families

Partnership Initiative	Description	Benefits
Tinker AFB Bird Airstrike Hazard (BASH) Abatement	Provide BASH program for Del City-owned lake off cross-wing runway. - Lake hosts 1000 resident geese in lake located in APZ-II	- AF aircrew safety; avoid cost of potential bird strike - Efficiencies from joint program
Memorandum of Agreement (MOA)		
Tinker AFB Commissary Food Donations	Non-profit food bank will pick up outdated distressed merchandise at Tinker and three other Oklahoma installations (Assistant Secretary of Defense approved). - Partnership spun off of Refuse Management IGSA effort	- Reduced tipping fee - Reduced risk of pests promotes safety of the airmen - Vendors will give the Commissary a partial refund for donated goods
Letter	Visitors Bureau facilitates off-base lodging (more than 10 rooms) at local commercial institutions.	- Greater AF reach into commercial lodging - Potential cost savings
Memorandum of Agreement (MOA)		
Tinker AFB Firefighter Ride Out Program	This agreement will allow Tinker and other local first responders to "ride out" with partnering organizations. This will create a shared understanding of each organizations emergency response capabilities; support the development of improved contingency plans; and support the establishment of common operational picture among the participating organizations.	- Increased understanding of each organizations emergency response capabilities - Improved coordination and contingency plans - Improved common operational picture among the participating organizations
Memorandum of Understanding (MOU)		
Wright-Patterson AFB First-Responder Radio Interoperability	Improve interoperability with land mobile radios (LMRs) by transitioning Wright-Patterson AFB to the Ohio Multi-Agency Radio Communication System (MARCS)	- Interoperability of communications between base and state/community emergency response organizations
Informal Agreement		
Wright-Patterson AFB Shared Swimming Pools	Wright-Patterson AFB extended utilization of its swimming pools to community swim teams and individuals in exchange for swim pass fees.	- Over \$83K in revenue for 2014 season. - Increased foot traffic will allow pool to stay open.
